

“Goodbye Blackboard, Hello...

WHAT is Moodle and which classes are affected?

- *MOODLE is CSU's new course management system. This will replace Blackboard for the facilitation of e-learning.*
- *Every course offered through the CSU Course Catalog will have a MOODLE class site available to the instructor and students.*

WHY is CSU switching from our current course management system?

- *Using Moodle is a fraction of the cost of using Blackboard while still providing a robust teaching and learning environment. In the most recent LMS 360° Report, members who tried or adopted Moodle report high satisfaction rates, low costs, easy implementation and use.*

WHEN does the MOODLE transition take place?

- *The switch to MOODLE is in progress and will be in full effect beginning Fall Semester 2010; at this point, Blackboard will no longer be active.*

WHERE can you access Moodle?

- *MOODLE can be accessed from the following websites:*
 - *Cougar Connect - <https://cougarconnect.csu.edu>*
 - *CSU Moodle - <http://csumoodle.remote-learner.net>*

WHO do you contact for assistance?

- *Direct all Moodle support inquiries to Library Instruction Services 773-995-2960 or www.csu.edu/moodle*
